

Single Screw Pelletizing Extruders

Beier single screw pelletizing extruders feature heavy duty, precision gear boxes, UL/CSA approved electrical components, application specific designed screws and heavy duty, rigid extruder frames. These extruders are used in strand, water-ring, underwater and die-face cutting pelletizing lines.

Technical Parameters:

Model	L/D	Output(kg/h)	Speed(r/min)	Drive power (kw)	Center height(mm)
SJ25	25/1	5	20-120	2.2	1000
SJ30	25/1	10	20-180	5.5	1000
SJ45	25-33/1	50-150	20-150	7.5-22	1000
SJ65	25-33/1	60-250	20-150	22-90	1000
SJ75	25-33/1	200-350	20-150	55-110	1100
SJ90	25-33/1	280-550	20-110	37-185	1000-1100
SJ120	25-33/1	320-880	20-90	75-280	1000-1250
SJ150	25-33/1	400-1200	20-75	90-355	1000-1300
